The Enrich international online platform provides an interactive and personalized experience filled with on-demand courses, behavioral assessments, financial exercises, tools, articles, videos, and a myriad of other content tailored specifically to the individual user. New content, courses, and tools are continuously added to enhance the user experience.

What languages are available?

8 languages are already live:

- English
- Spanish
- Chinese
- Portuguese
- Japanese
- French
- Malay
- Bulgarian
- French Canadian

Additional languages will be added regularly and can be prioritized upon request, subject to review. Please [contact us to inquire about languages not on this list].

How often is Enrich adding localized content?

Each new localized country is launched with a minimum of 5 localized pieces of content. By default, 1 additional localized content piece is published every other month, but this can be increased based on our client's needs. A minimum of 3 pieces of globally applicable content is published monthly. All currency and numeric values within our tools are localized based on country and language.

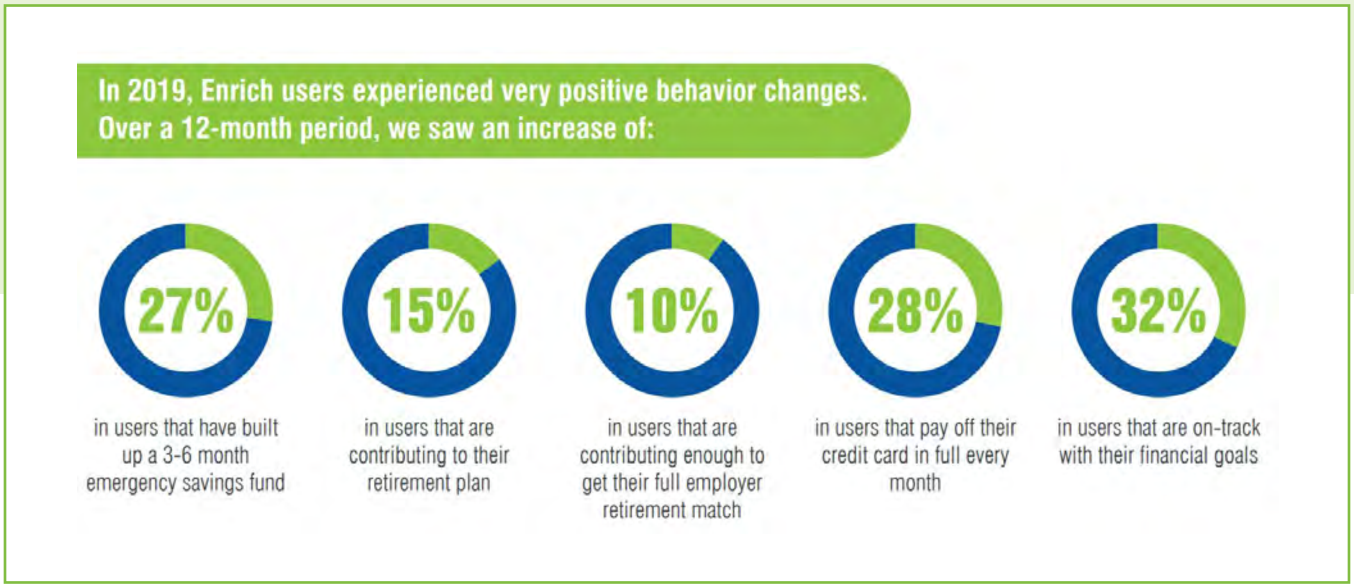
Can the client integrate their own localized content?

Absolutely. Our client success team works hand-in-hand with clients to integrate custom calls-to-action and/or to host the client's content or benefit information.

Is your global platform responsive?

Absolutely. Our platform is a mobile-first solution that is designed to respond to desktop, laptop, tablet, and mobile devices seamlessly.



How does the employee access the program? Is it the same for all employees?

This will be determined by the client and how they want to share our services with their employees. Most clients integrate via Single Sign-On, but additional options like manual registration and hybrid access are also available.

How much does it cost?

There is a one-time setup fee and an ongoing per-employee-per-year (PEPY) licensing fee. The exact PEPY is determined based on the total eligible population and the number of countries and languages. Please contact us for specific pricing.

How many countries can the platform be used in?

The platform is currently live and being used in over 100 countries. Currently, we provide localized content to 16 countries with the plan to add more countries moving forward. Please contact us to inquire about what countries the program is available in.
